PROFESSIONAL SUMMARY

Hands-on experience in web and full-stack development with strong fundamentals in JavaScript and Python. Skilled in building responsive user interfaces and REST-based backend services. Good understanding of DSA basics, system design fundamentals, and Git-based workflows. Actively upskilling through projects and modern web technologies.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js (Components, Props, Hooks, Routing), Bootstrap, Shadcn UI, DOM Manipulation, Event Handling
Backend	Node.js, Express.js, REST API Development, Basic Authentication & CRUD Operations
Programming Languages	JavaScript, Python, Java, C
Databases	MySQL (Queries, Joins – Basics), MongoDB (Basics)
Core CS Concepts	Data Structures & Algorithms (Arrays, Strings, Linked List, Sorting – Beginner), OOP Concepts, Basic System Design (HLD: API Flow, LLD: Class Design)
Tools & Version Control	Git, GitHub, VS Code

EDUCATION

2021 – 2025	B.Tech in Computer Science and Engineering (Cyber Security & IoT), Siddharth Institute of Engineering and Technology, Puttur	(CGPA: 7.26/10)
2019 – 2021	Intermediate (MPC), Vamsi Junior College	(58%)
2018 – 2019	Secondary School Certificate, Siddhartha English Medium High School	(CGPA: 8.8/10)

INTERNSHIP EXPERIENCE

Python Developer Intern, Aavanto Pvt. Ltd	Nov 2023 – Dec 2023
– Developed Python scripts for data automation and error handling. – Implemented file handling and data validation modules, reducing processing errors by 30%. – Enhanced understanding of object-oriented design and debugging in Python.	
Full Stack Web Developer Intern, SmartED	Jul 2024 – Sep 2024
– Developed responsive front-end interfaces using HTML, CSS, and JavaScript for an education-based web platform.. – Collaborated with the backend team to integrate user modules and testing features. – Improved page performance by 25% through optimized DOM and script loading.	

PROJECTS

Mini E-Commerce Website	Jul 2024 – Sep 2024
– Designed and implemented a responsive e-commerce platform with product listing, cart functionality, and checkout flow. – Integrated basic Flask backend for routing and dynamic content rendering.	

Full Stack E-Commerce Web Application (Personal Project)

- Developed a full-stack shopping platform using React, Node.js, Express, and MongoDB.
- Implemented user authentication, product listing, cart, and order flow.
- Built REST APIs and integrated frontend with backend services.
- Code hosted on GitHub with proper documentation.

ADDITIONAL PROJECT

Smart IoT Home Monitoring System (College Capstone)

- Built a real-time sensor system for temperature and security monitoring.
- Visualized data via Python and basic dashboard interface.

CERTIFICATIONS & COURSEWORK

- React.js Fundamentals
- Node.js & Express Basics
- Data Structures & Algorithms – Beginner
- Git & GitHub Version Control

LEARNING & UPSKILLING

- Actively building full-stack web applications using React and Node.js.
- Learning backend integration through REST APIs and database connectivity.
